

MODS

2024 AUGUST PRICES

AMPS	MODS	PRICE.
Taboo MK2, MK3, MK4	Foil Signal Cap Mod	\$425.00
	UFO (output transformer) Mod	\$570.00
SE84 - all models	Foil Signal Cap Mod	\$425.00
	UFO (output transformer) Mod	\$550.00
SE84UFO3 Monos (ea.)	Foil Signal Cap Mod	\$250.00
	UFO (output transformer) Mod	\$225.00

NOTE: On above units, foil signal cap mod improves resolution. UFO mod improves dynamics and adds a hi/low speaker impedance switch to each channel of the amplifier.

SE34I.3, SE34I.4, SE34I.5	Foil Signal Cap Mod	\$425.00
	Variable Outputs	\$350.00
	1/4 Inch Headphone Jack	\$390.00
	UFO (output transformer) Mod	\$600.00

NOTE: Variable outputs (output that changes with volume control) are used to either drive subwoofers or a second amplifier. There is one per channel. 1/4 inch headphone jack works at the same time as the speakers. If you don't want speakers playing at a low level in the background, simply unhook the positive banana jack for each channel.

MINI TORII - all models	Foil Signal Cap Mod	\$490.00
	Variable Outputs	\$325.00
	Adjustable Feedback Mod	\$570.00
	1/4 Inch Headphone Jack	\$390.00
	UFO (output transformer) Mod	\$600.00

NOTE: Adjustable feedback makes it possible to reduce feedback and increase gain and dynamics. This is not recommended with headphone use.
